Access Control Service for IPFS

Problems

- Hard to update and edit files on IPFS (also with IPNS)

- Impossible to control access to files on IPFS

Solution

Access Control Service allows you

- upload files to IPFS and publish to IPNS

- update files on IPNS link

- manage access to files by wallet

acs.donft.io

Update file on IPNS

https://youtu.be/tFvP_OMr83o

In progress

- add encryption of files
- add access levels (read, write, administrator, owner)
- add readable alias for files

- Add encryption to files

- Add access levels (read, write, owner and etc)

- Add readable alias for files

- Manage access unchain

Business model

- Fee from hosting files on IPFS node

- Fee from readable alias for files

- SaaS

Thanks for attention
